DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 8/5/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,707,696 has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. Claims 1-10 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The primary reason for allowance is the inclusion of having a power up write controller for providing data and a write enable signal for reading and writing from a one time programmable memory circuit when receiving an address signal from an address decoder in order to provide the state of the data with the remaining claims limitations as disclosed specifically in claims 1 and 6.

Claims 2-5 and 7-10 are allowable because of their dependency of the independent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
